Miniclips

The animal kingdom is vast and varied, and each species is unique! Begin exploring life cycles and classification with your students with these new Miniclip titles!

Butterflies: Caterpillars in Disguise

It's almost unbelievable that a caterpillar is actually the same animal as a butterfly – but it's true! Amaze your students with the captivating stages in the life cycle of a butterfly with this Miniclip. With a blend of animation and real life footage, your students will witness the metamorphosis from an egg through to the caterpillar and chrysalis phases, ending with a beautiful butterfly taking flight, only to repeat the cycle all over again.

Jnr Primary - Mid Primary
